TEMITOPE JOSEPH SEIDU

FULL STACK DEVELOPER

• +234-806-901-8573 • temitope.seidu7@gmail.com • linkedin.com/in/gr8skills

• github.com/gr8skills •15b, Alhaji Hussein, Lekki Phase 1, Lagos.

SUMMARY

Full-stack developer (backend heavy) and robotic engineer with 8+ years of professional experience in software engineering, backend and frontend development, testing, and system automation. Strong understanding of SDLC, STLC, QA processes, and efficient error-handling workflows. Expert in PHP, JavaScript/TypeScript, NodeJS, and modern frameworks (NestJs, NextJs). Hands-on experience in .NET (C#), ASP.NET Core, Blazor, SignalR, including API development, authentication, background services, and enterprise systems integration. Proven track record in building production-grade solutions in fintech, agriculture, government revenue management, manufacturing, and education technology.

SKILLS

PRORAMMING LANGUAGES

• PHP • Javascript • Typescript • C# • Python • Kotlin • C++

DATABASE & STORAGE

• SQL (MySQL, MSSQL, SQLite, PostgreSQL) • MongoDB • NoSQL

FRAMEWORKS & TOOLS

• Laravel • Angular • React • Vue • NestJS • Express • ASP.NET Core (Web API, MVC, Entity Framework Core) • Spring • Git • Docker

OTHER SKILLS

• Robotic Process Automation (C++) • Microcontroller Programming (Arduino, Raspberry Pi)

STRENGTH: Critical Thinker, Creative, Flexible and Problem-solving abilities.

PROFESSIONAL EXPERIENCE

NowNow Digital Systems Ltd., Lagos, Nigeria — Mar. 2023 – Present

Fullstack Developer (PHP / Angular)

- ➔ Contributed to the development and maintenance of government revenue automation systems across multiple states in Nigeria.
- ➔ Integrated secure modules for tax collection, business licensing, land revenue management, and vehicle registration.

- ➔ Developed internal microservices using ASP.NET Core Web API, handling authentication, user role permissions, and data synchronisation between legacy PHP services and modern NET-based services.
- ➔ Built reusable Angular components, improving UI performance and maintainability.
- ➔ Optimized SQL queries and implemented caching strategies, improving API response times by 32%.

Technologies: Laravel, Angular, ASP.NET Core (C#), MySQL, MSSQL, Git

---

Blouza Technologies Ltd., Lagos, Nigeria Jul. 2025 – Present

Fullstack Developer (PHP / NestJs / React / NextJs)

- ➔ Led the development of cutting-edge solutions such as CareSol, EasyPay, ReMS, and contributed to the development of several other solutions.
- ➔ Contributed to building tax solutions for local and state governments in Nigeria
- ➔ Built reusable React components, improving UI performance and maintainability.
- ➔ Optimised SQL queries and implemented caching strategies, improving API response times significantly.

Technologies: Laravel, React, NestJs, NextJs, MySQL, Git

PayOnDelivery, Houston, Texas Jan. 2025 – Dec. 2025

Lead Developer (PHP / React)

- ➔ Led the development of user-centric, standard modules that make buying and selling effortless and seamless.
- ➔ Improved on existing implementations and screens.
- ➔ Handled code review, deployments and server management, ensuring standard solution and 99% uptime.
- ➔ Optimised SQL queries and implemented caching strategies, improving API response times significantly.

Technologies: Laravel, React, CircleCI, GitHub Actions, MySQL, Git

---

Winexviv International, Lagos, Nigeria July 2019 – Feb. 2023

Back-end Developer (educare)

- ➔ Developed an **automated error notifier system** that captures critical application failures and generates real-time alerts, raising customer satisfaction by 35%.
- ➔ Contributed to the design and development of the **accounts and finance module**, integrating wallet services and multiple payment gateways (Rave, Paystack).
- ➔ Improved system reporting efficiency with optimised SQL queries and structured logs.
- ➔ Participated in building an HRM system covering staffing, payroll, leave and employee data management.

Technologies: Laravel, AngularJS, MySQL, Git

Robotic Engineer (educare)

- ➔ Developed automated hand-washing machines and disinfectant booths during the 2020 pandemic.
- ➔ Built agricultural fruit-sorting systems using Raspberry Pi and embedded C++.
- ➔ Trained students in STREAM (Science, Technology, Reading, Engineering, Arts & Mathematics) robotics programs.

Technologies: C++, Arduino, Raspberry Pi, Sensors, Servo Motors

Software Engineer & Support (SFS Capital Nigeria Limited)

- ➔ Designed and modified software systems using mathematical models and engineering principles.
- ➔ Developed internal platforms using **React, NextJS, Laravel, and .NET integrations** for data processing.
- ➔ Conducted feasibility analysis on large-scale software features.

Technologies: Laravel, React, Next.js, .NET API Consumption, Git, Excel, SPSS

DONROSE-RK Nigeria Limited, Delta, Nigeria December 2016 – August 2018

Full Stack Developer & Administrator

- ➔ Built a stock management and accounting web application tracking goods movement with Nigerian Breweries.
- ➔ Enabled recovery of ₦7 million worth of pending deliveries within 6 months.
- ➔ Developed systems for diesel usage monitoring, vehicle depreciation tracking, personnel sales performance, and profit analysis.

Technologies: PHP, MySQL, Excel, VBA, Git

National Youth Service Corps, Bayelsa, Nigeria Mar 2014 – Feb 2015

IT Support (Accounts & Finance)

- ➔ Built Excel VBA automation for processing corps members' monthly allowance, reducing workload by 45%.
- ➔ Managed document control systems across departments using Access and Visual Basic.

Technologies: Excel VBA, Microsoft Access, Batch Script

EDUCATION

Rufus Giwa Polytechnic, Owo, Ondo State, Nigeria. September 2013

Bachelor of Technology — Computer Engineering Technology

- ➔ Relevant Coursework: Digital Electronics, Algorithm, Matlab, C++
